

# Non-academic discipline code still up in air

Members of the Internal Affairs Committee on Tuesday completed what may have been their final debate in a long series of inconclusive discussions on a code and enforcement structure for non-academic discipline.

After almost 90 minutes of familiar point and counterpoint, the members voted, with apparent relief, to refer the entire discipline problem to the Executive Committee, together with a recommendation for revision of the Caput, the existing disciplinary body.

"I share Mr. Nixon's deep and abiding faith in rational discussion but it just won't work any longer," said Marnie Paikin, in reference to a suggestion by Brad Nixon, student member, that the working group on discipline be

given another chance to arrive at a possible consensus.

Prof. Jill Conway, Vice-President - Internal Affairs, noted that, while some progress has been made in resolving the question of double jeopardy, there is still no mechanism, after more than two years of discussion, for determining when a disruption becomes a disciplinary matter.

Stephen Moses, student member, argued that a code of law "unacceptable to a significant section of the University" is pointless and suggested the clauses dealing with academic offences be transferred to the code of academic discipline previously approved by Governing Council.

Prof. Gary Thaler contended that to grant any estate in

the University a veto over discipline decisions is "a potential erosion of the role of the Governing Council." Noting that faculty members have accepted the recent decision regarding voting student members on tenure committees, he insisted "all Council decisions must be respected and the University must not deteriorate into factionalism."

When the committee voted to refer the issue back to the Executive Committee, with a recommendation that Caput be replaced, student members proposed an amendment that such a mechanism must be satisfactory "to all estates of the University community." The amendment carried by a 3-2 vote with three abstentions.

Innis College construction is moving on schedule toward the hoped-for December completion date. This fish eye camera lens view, looking northward from Sussex Ave., was taken from inside one of the existing houses that will be incorporated in the Innis complex.

## Athletic facility cut 15%

Revised drawings for the proposed athletics facility at Spadina Ave. and Harbord St. indicate a significant reduction in height and a 15 per cent. decrease in the total square footage, Prof. Jill Conway, Vice-President - Internal Affairs, told Tuesday's meeting of the Internal Affairs Committee.

The tall diving tower has been removed from the swimming pool design and other economies have been made in certain leisure lab and office space, she said.

The revised plans are under study by members of the athletics staff, who will advise on possible programming implications.

Adjusted cost estimates for the facility should be available by the end of the month, but Prof. Conway cautioned that the 15 per cent. saving likely will be totally wiped out by inflation.

## Ontario asks U of T to study waste

How much waste is produced in Ontario; how is it collected, transported, processed, or marketed; and what are the costs and incomes involved? The Waste Management Branch of the Ontario Ministry of the Environment has recently asked whether the U of

T's Institute for Environmental Studies could undertake a "systems study".

Described as an extremely complex task which will entail the development of a computer model, the study will provide guidance on the improvement of waste management systems.

# Bulletin

## Special session of Council to deal with OCUA brief.

The Governing Council, meeting yesterday at Scarborough College, postponed the main item of business to a special meeting on Tuesday, April 22. Frank McIntyre, president of the Graduate Students' Union, speaking for a number of campus organizations, urged that the University's meeting with the Ontario Council on University Affairs be postponed until further consultation and discussion could take place. The chairman, Malim Harding, informed the Council that the only other date that OCUA could make available was Saturday, June 21. After considerable argument the Council voted to hold the meeting with OCUA as planned - that is, on May 9.

### More tact suggested

When the OCUA brief was under discussion, Sydney Hermant expressed his agreement with the underlying assumptions about the University's financial problems

but thought they should be more courteously and tactfully introduced. Seymour Kanowitch introduced the procedural objection to discussing the content of the brief without complete information and further input from campus groups.

### Not enough consultation?

Gordon Fisher and Patti Fleury thought that there had been enough consultation to ensure that the University's situation was clearly put forward. The possibility of a special meeting of the Planning and Resources Committee was considered, but the Council eventually decided on a special meeting of the entire body.

By the time that decision had been reached there was inadequate time to discuss the important matters of principle raised in the draft brief to OCUA - hence the calling of the special meeting.

Earlier, Council heard from Alex Rankin, Vice-President - Business Affairs, on the progress

being made in processing the Graduate Assistants' Association's application for certification as an authorized bargaining agent. The Ontario Labour Relations Board directed the University to supply a list of the names of those eligible for membership in such a union. There have been 22 formal meetings, and an present 2,098 names have been agreed to by both parties, 315 have been withdrawn by the University, and 767 are in contention.

### No rental by individuals

Budgets of the Royal Conservatory of Music, the U of T Press and Hart House were approved. A motion by David Shindman and Peter Jarrett, student members, to refer the room allocation policy back to the Internal Affairs Committee was defeated. They had wanted individuals to be able to rent rooms directly instead of through the recognized campus organizations. Sydney Hermant

## Tenure: how to select students?

Three hours of lively and pointed debate at the Academic Affairs Committee meeting on April 10 failed to produce a conclusive recommendation for a suitable method of selecting the student members of future tenure committees.

After a series of straw votes on a number of possible selection models, the weary members apparently did agree that the actual selection would be made by the head of the academic division responsible for appointing the other members to the tenure committee. However, there remained strong disagreement as to whether the division head could appoint any willing and qualified student or would have to select a nominee from a list of candidates submitted by the appropriate student organizations in that academic division.

A decision between these two remaining models is expected to be taken when the Academic Affairs Committee meets on April 24. As last week's session began, Prof. John Dowd, chairman, said the method of appointment and the qualifications of the student members are interconnected, and he invited the committee to

consider models originally presented last fall, as well as presents from other universities.

The committee had little enthusiasm for the York University system, which was described as "even more complex than any of the proposals for U of T", and rejected other proposals because they apparently eliminated all graduate students from consideration.

Prof. Michael Grapko suggested that each faculty be allowed to select its own appointment mech-

anism from among a list of proposed models but the acting Provost, Prof. Milton Israel, disagreed, noting that there are presently 33 tenure-granting divisions even when Arts and Science is counted as only one division. He predicted massive confusion if each division had a separate selection system.

Dean Bernard Etkin, Engineering, opposed both election and selection by lot. If the head of division were responsible, "he

Continued on Page 3

## Seek Erindale principal

A search committee headed by Acting Vice-President and Provost Milton Israel has been appointed to recommend to the President a successor to Dr. E.A. Robinson as principal of Erindale College. When Principal Robinson took the position last year, he asked that the appointment be for only a two-year term, expiring June 30, 1976.

In addition to Prof. Israel, the members of the committee are: Prof. H.F. Andrews, Geography; R.L. Armstrong, Physics, St. George; F.I.M. Craig, Psychology; B.L. Roots, Zoology; and D.A. Trotter, French; Dean Robert A. Greene, Arts and Science; Vice-Dean Harold W. Smith, Graduate Studies; Principal Peter Russell, Innis; Arthur Birkenberg, Paul Kochberg, Paul Macpherson, and Helen Metz. David Cook is secretary.

"Suggestions are most welcome," says Prof. Israel, "and should be directed to me or to any other member of the committee as soon as possible."

**Reproduction of a rock painting of Mishipeshu near Agawa Bay, Lake Superior, from *The sacred scrolls of the Southern Ojibway* by Selwyn Dewdney, a book recently published by the Press. Mishipeshu is one of the five great beings, or super-gods, and is associated with death by drowning. This painting is extraordinarily large compared with the usual rock paintings that can be covered with one or two hands. It is also unusual for the completeness and accuracy of its provenance.**

## Recommendations made by C & S for grading practices at U of T

*The following are excerpts from the recommendations on grading practices of the sub-committee on curriculum and standards of the Academic Affairs Committee of Governing Council:*

That the general grading procedure be established as follows:

A. Exceptional performance with evidence of original thinking, good organization, capacity to analyze and synthesize; a superior grasp of the subject matter with sound critical evaluations; evidence of an extensive knowledge base.

B. Good performance with evidence of a grasp of the subject matter, some evidence of critical capacity and analytic ability, and reasonable understanding of the relevant issues under examination; evidence of familiarity with the literature.

C. A grade of C indicates the performance of an intellectually adequate student who is profiting from his university experience. The grade indicates an understanding of the subject matter and an ability to develop solutions to simple problems found in the material. It should be made clear that a grade of C is an acceptable and respectable one counting fully for credit towards the degree.

D. A grade of D indicates a minimally acceptable performance. The student must exhibit some evidence of familiarity with the subject matter and some evidence that critical and analytic skills have been developed. A D grade may still count for credit towards

the degree within the limitations of the Faculty involved.

F. A grade of F indicates inadequate performance in which there is evidence of a superficial or confused understanding of the subject matter. There is displayed a weakness in critical and analytic skills, with limited or irrelevant use of literature.

That in addition to an indication of the positive grade assigned, transcripts will give an indication of class rank for each course taken, (minimum enrolment 25), expressed as a decile. The deciles will number from one through 10.

A rank in the 10th decile, for example, will indicate that a student is positioned, with regard to positive grades, higher than 90 percent of the course enrolment. A student in the second decile will be positioned higher than 10 percent of the course enrolment.

That it should be general practice for the faculty member to invite discussion in the classroom with respect to a possible improvement of the proposed method of evaluation.

That where a marking scheme is explicitly given, it should not be changed without class discussion and approval.

That in no case should the marking scheme be altered after the last date for withdrawal from a course without academic penalty unless there exists the unanimous consent of all students registered in the course.

That faculty members be available to discuss marking schemes and review the marking of written assignments with the students, in

the daytime, and for evening students, in the evening.

In no case should a quota system be the basis for assigning grades or making promotional decisions within any course or degree program, and the use of bell curves to strictly enforce grade distribution is generally discouraged.

Each faculty/division will establish mark review committee(s) to oversee the grading policies and procedures of that division.

Such committees will review the overall mark distribution of all courses and may choose to re-examine the standing of those students with borderline grades. The committees will be empowered to question any instructors concerning the standards they apply, the methods of assessment, the pattern of grades assigned, and the standing of those with borderline marks. In cases where the instructor fails to satisfy the committee concerning the adequacy of his own evaluation procedure or where gross and unfair marking of grades occurs, the committee, in consultation with the instructor, may rescale the grades of all students involved and/or revise the standing of borderline individuals. The committee will in all cases recognize that the instructor is, in general, the best judge of student performance and that his function must not be usurped without grave cause. The committees may make recommendations as they see fit to individual instructors and to their department/division as to future grading policies and their implementation.

## STAFF NOTES

### Applied Science and Engineering

PROF. E.J. DAVISON gave an invited lecture entitled "The Robust Control of a General Servomechanism: the Servo Compensator" to the Department of Electrical Engineering, McGill University, Nov. 5. At the same time he also visited the Centre de Recherches Mathématiques, University of Montreal.

PROF. B. TABARROK attended the International Symposium on Discrete Methods in Engineering (Milan, Sept. 16-24) and delivered a paper entitled "Application of Successive Perturbation to Elastic Stability Problems". Subsequently Prof. Tabarrok visited the International Centre for Mechanical Sciences in Udine. He visited the Delft Technological University and the laboratories of Rijkswaterstaat in The Hague (Oct. 24). On this visit Prof. Tabarrok delivered a seminar on "Computational Energy Methods in Elastodynamics". He also visited the Technological University of Denmark in Lyngby (Oct. 25) and delivered a seminar on "The Dynamics of Axially Moving Beams".

DR. G.S. BEAGRIE attended a meeting of the Medical Research Council Grants Committee for Dental Sciences in Ottawa from Oct. 1 to Nov. 1.

DR. D.C. SMITH, in his capacity as chairman of the CAC/ISO Advisory Committee, held a meeting in Toronto on Nov. 21. As chairman of the CDA Committee on Dental Materials and Devices he held a meeting in Toronto on Nov. 22. Dr. Smith presented a lecture entitled "Cast Gold and Other Alloys for Restorations" at the Winter Clinic in Toronto on Nov. 1.

DR. J.C. DUNCAN participated in the 26th Annual Workshop of the Society for Clinical and Experimental Hypnosis in Montreal from Oct. 8 to 13. Dr. Duncan taught at the 17th Annual Workshop of the American Society of Clinical Hypnosis in New Orleans from Nov. 5 to 10. He was also invited to present a paper on "Hypnosis in Children's Dentistry" and to participate in a panel discussion "Hypnosis in Dentistry" at the Scientific Program.

PROF. CHUAN TU also pre-

sented a research paper on "Protein Extraction from Brewer's Yeast by a Conventional Method".

PROF. C. DUNKLEY attended the Western Hemisphere Nutrition Congress IV at Miami Beach, Aug. 19-22, and the American College of Nutrition Meeting in Chicago, Nov. 16 on Nutrition Education in Medical Schools.

### Dentistry

DR. F. POPOVICH presented a paper entitled "Evaluation of Interceptive Orthodontic Treatment" at the Canadian Association of Orthodontists meeting in Toronto on Oct. 5.

DR. G.S. BEAGRIE attended a meeting of the Medical Research Council Grants Committee for Dental Sciences in Ottawa from Oct. 1 to Nov. 1.

DR. D.C. SMITH, in his capacity as chairman of the CAC/ISO Advisory Committee, held a meeting in Toronto on Nov. 21. As chairman of the CDA Committee on Dental Materials and Devices he held a meeting in Toronto on Nov. 22. Dr. Smith presented a lecture entitled "Cast Gold and Other Alloys for Restorations" at the Winter Clinic in Toronto on Nov. 1.

DR. J.C. DUNCAN participated in the 26th Annual Workshop of the Society for Clinical and Experimental Hypnosis in Montreal from Oct. 8 to 13. Dr. Duncan taught at the 17th Annual Workshop of the American Society of Clinical Hypnosis in New Orleans from Nov. 5 to 10. He was also invited to present a paper on "Hypnosis in Children's Dentistry" and to participate in a panel discussion "Hypnosis in Dentistry" at the Scientific Program.

PROF. D.V. LOVE attended a Canadian-American Seminar on North American Energy in Perspective at the University of Windsor and chaired a session devoted to the topic "Energy Self Sufficiency in the 1980s".

with the Workshop. Dr. Duncan presented a paper and taught techniques for the induction of self-hypnosis at the Winter Clinic in Toronto on Nov. 28. He was the Workshop Director for the Basic Workshop of the Ontario Society of Clinical Hypnosis which was held in Toronto on Jan. 31 and Feb. 1 and 2.

DR. J.A. HARGREAVES attended the University of Manitoba Symposium on College Teaching and its Evaluation from Oct. 16 to 18.

DR. K.C. TITLEY presented a paper on the subject "The Dental Status of Indians Resident in the Sioux Lookout Zone of Northwestern Ontario" at the 3rd International Symposium on Bi-Polar Health at Yellowknife in July.

### Forestry

PROFS. F.J. KEENAN and J.J. BALATINECZ attended the Fall Meeting of the Eastern Canadian Section of the Forest Products Research Society held Oct. 23-25 in Stoneyham, Que. The theme of the meeting was "Supply and Demand for Hardwood Lumber in Eastern Canada". Prof. Keenan chaired the two-day annual meeting of the National Research Program Committee on Structural Utilization of Wood in Ottawa on Oct. 29 and 30. This committee advises the Directors of the Eastern and Western Forest Products Laboratories of the federal Department of the Environment on research priorities and procedures.

PROF. D.V. LOVE attended a Canadian-American Seminar on North American Energy in Perspective at the University of Windsor and chaired a session devoted to the topic "Energy Self Sufficiency in the 1980s".

## Hints for safer driving

Defensive driving techniques are used to prevent accidents even if they are not your "fault". So says James H. Murphy, Chief Safety Officer for the University. Here are some sample situations and the reactions of a defensive driver:

A child is nearly hit because he darted out between parked cars into your path. A defensive driver would anticipate such actions by travelling slowly and being attentive, especially in a residential or school area.

In traffic, you make a sudden stop and hit by a following car. A defensive driver would avoid the necessity of a sudden stop by allowing a good distance between himself and the car in front of him.

Your light turns green, you enter an intersection and are hit by a vehicle running a red light. A defensive driver, even though he has the right of way, should make

sure cross-traffic has stopped before proceeding.

You are forced off the road by a driver trying to pass your car because he did not allow himself enough passing room. A defensive driver would definitely have avoided this one. When being passed by a vehicle, if necessary, a defensive driver should slow down to compensate for a passing motorist's poor judgment.

You are driving on a highway and are sideswiped by another car entering from an access road. While the other driver was wrong, a defensive driver could have spared himself the inconvenience, expense and possible injury of an accident by either moving to the left lane or slowing down to allow the entering vehicle onto the highway.

Defensive driving is basically good common sense. It doesn't pay to be right if it means being dead right.

## 3 postgraduate medical programs

The Division of Postgraduate Medical Education of the Faculty of Medicine is holding three special programs. The first, April 28-29, entitled "Rehabilitation in Respiratory Disease" will be held at the Sunnybrook Medical Centre.

"Pulmonary Disease - The Changing Scene" is the title of the program being held April 30 to

May 2 in room 3154 of the Medical Sciences Building.

On June 5 and 6, there will be a program on "General Thoracic Surgery" at the Mount Sinai Hospital.

For further information and registration, get in touch with the Division of Postgraduate Medical Education, Medical Sciences Building, telephone 928-2718.

PROF. LILIAN THOMPSON attended the annual meeting of the Canadian Institute of Food Sciences and Technology which was held in Montreal June 10-12 and delivered a research paper on "Coagulation of Rapeseed Oil and Cheese Whey Protein Using Acid and Heat Treatment"; "Isolation of Rapeseed Protein using Sodium Hexametaphosphate"; and "Preparation and Properties of Mungbean Flour".

PROF. CHUAN TU also pre-

# Tenure: how to select students?

*Continued from Page 1*

would likely consult the appropriate individuals and student groups within the faculty," he said.

Peter Jarrett, student member, called this method "absolutely ridiculous" and Seymour Kanowitch, president of the Students' Administrative Council and a newly elected graduate student member of Governing Council, supported a system based on recommendations from the student members of faculty councils, course unions, and other relevant organizations.

Prof. Grapko said students might then "feel a primary obligation to the appointing group and not to the tenure process itself." He feared the tenure process "might become a political game."

"Tenure decisions at this University have already made the political world series," Mr. Kanowitch replied.

Prof. Margaret W. Thompson said "rash and untrue" statements such as those by Mr. Kanowitch are one basis for the "strong and genuine" faculty concern regarding the appointment of voting

students members to tenure committees. Mr. Kanowitch said the student members of Governing Council have proved that "they are dedicated to furthering the governing process and not serving sectarian interests."

Both the acting Provost and University College Principal A.C.H. Hallett supported appointment by the head of the academic division responsible for appointing the other members. "I am sure the deans will act responsibly even if they originally opposed the presence of a voting student member," Prof. Israel said.

Prof. Thompson was unable to win much support for a proposal that the candidate for tenure propose up to 10 students for selection by the dean.

Faculty members generally supported the model favouring selection by the head of the division from among all the qualified students in that division. Qualifications would be based on academic standing and a willingness to serve.

Student members endorsed a model presented by Gordon Barnes, SAC president-elect, which would limit the dean's selec-

tion to the student members of the various governing bodies within the division plus any other students nominated by these students or by student organizations such as course unions. Graduate students would be fully eligible for nomination and selection.

The committee finally adopted its lengthy consideration of ten committees after approving that five positive votes out of seven would continue to be required for a recommendation that tenure be granted.

The committee then swiftly completed the remainder of its agenda.

The constitution for Woodsorow College was approved, as were amendments to the course of study for Scarborough College, the School of Physical and Health Education, and the Faculties of Education, Music and Medicine.

Minor fee adjustments were granted to P&HE and Forestry, and the committee received a report recommending "greater participation" by the Toronto School of Theology in the "academic activities of the University" but no additional form of federation at the present time.

## FRIDAY, APRIL 18

Norman Badler, Department of Computer Science, "Temporal Scene Analysis: Conceptual Descriptions of Object Movements." Thesis supervisor: Prof. J. Mylopoulos, Room 201, 65 St. George St., 1 p.m.

# Special session called on OCUA

## The recommendations

The following is the revised recommendation covering the composition, function and powers of the proposed University Tenure Committee as presented to the Academic Affairs Committee last week. The wording reflects amendments approved by AAC at its April 3 meeting but not yet submitted to the Governing Council.

Significant alterations from the previous wording are indicated in italic type.

## The recommendations

There shall be established a University Tenure Committee which shall receive and review all recommendations concerning tenure from divisions during an academic year, with a primary concern for the consistency of procedures and standards in tenure committees. The membership of the University Tenure Committee shall include all those members of the teaching staff appointed in that year to act as chairmen of tenure committees, together with substantial representation drawn from students and alumni and lay

persons. The student, lay and alumni members of the Committee shall be appointed by the Academic Affairs Committee on the recommendation of the President. The Vice-President and Provost or his designee shall be the non-voting chairman. The quorum of the University Tenure Committee shall be one-third of the voting members.

When a divisional tenure committee has made its decision, the head of the division shall forward that decision and the candidate's dossier to the Vice-President and Provost for communication to the University Tenure Committee. Normally the review carried out by the University Tenure Committee shall be of a general and monitoring nature for inclusion in the Committee's annual report. In such cases the tenure committee's decision shall be transmitted immediately to the President by the Vice-President and Provost without advice from the University Tenure Committee. However, when explicitly so requested by the Governing Council or its Academic Affairs Committee should give consideration.

The University Tenure Committee shall report annually to the Governing Council through the Academic Affairs Committee in general terms on its actions. Its report may also include any substantial questions of standards, criteria or policy or any other matter to which it feels that the Governing Council or its Academic Affairs Committee should give consideration.

The University Tenure Committee shall report annually to the Governing Council through the Academic Affairs Committee in general terms on its actions. Its report may also include any substantial questions of standards, criteria or policy or any other matter to which it feels that the Governing Council or its Academic Affairs Committee should give consideration.

# Special session called on OCUA

## Continued from Page 1

and Seymour Kanowitch, both former SAC presidents, had a brief exchange on the topic of SAC's accountability to its constituency.

The imposition of a fee of \$8.75 by the Graduate Students' Union on off-campus part-resident graduate students was queried by Prof. Victor Graham, who said that the hundreds of such students completing their dissertations across the country would be

unwitting victims of this move and would derive no benefit from their membership. Graduate student member, Kitty Hoffman seconded Prof. Graham's successful motion to refer back this fee to Internal Affairs.

President John Evans reported that the financial arrangements between the University and the Federated Colleges had been under intensive discussion and were now accepted. The payments to the Colleges are nearly 26 per

cent higher than in the previous year, which contrasts strongly with the University's budget for other divisions, the main reason being the University's assumption of responsibility for academic salaries and its taking the first step towards salary equalization. The budgeted amount for the purpose of implementing the Memorandum of Understanding will be exceeded by \$860,000. Discussions will continue in an attempt to arrive at a formula that will enable the Colleges to plan ahead.

## APPOINTMENTS ANNOUNCED

The appointment of Paul Carson to the Department of Information Services as Information Assistant is announced. Mr. Carson, who is a graduate of St. Michael's College (1967) and who has several years' experience with communications media, is a staff writer in the department.

The Faculty of Library Science announces two appointments to its teaching staff. As associate

professor — Gerald J. Lazork, B.I.E., Ohio State; M.S. Industrial Engineering, Penn State; Ph.D. Operations Research, SUNY Buffalo; M.L.S. SUNY Buffalo. Dr. Lazork has had academic connections with both SUNY Buffalo and Ohio State. As assistant professor — C. Donald Cook, B.A., Arizona, B.S., M.S. Columbia, with D.L.S. in progress at Columbia. Mr. Cook came to Ontario in

1969 as research and planning officer for the Ontario Universities Bibliographic Center project and in 1971-72 was director of the Office of Library Co-operation of the Ontario Universities. He has been an associate instructor of the Faculty (1972-73) and lecturer (part-time) in 1973-74. He is on the board of directors of the Association of College and Research Libraries.

leave begins July 1 who intend to apply for a U of T research leave grant should do so immediately. Applications received after June 1 cannot be processed and reviewed in time for a July 1 start. Call 928-2163 for information.

## 1975 'nensis sought

A graduate of 2T5 has lost his copy of *Torontonianis* and is anxious to get another. If you can help, please get in touch with the Bulletin, telephone 928-2102, 45 Willcocks St.

## WAA announces award winners

Sue Scott, a member of the Canadian team in the world field hockey championships in Scotland this August, has won the Benson Award for "outstanding ability in athletics and scholarship" as selected by the Women's Athletic Association directorate. The award bears the name of Prof. Clara Benson, long-time director of women's athletics, after whom the Benson Building is also named.

Janice McKeilan, manager of the senior intercollegiate basketball team and Women's Athletic President at Victoria College, won the Hill-Poor Award for dedication "behind the scenes" in sports administration.

New College athletes amassed \$45 points to retain for a second year the Marie Parkes Trophy for interfaculty competition. The award is named after Marie

a member of the 1973 Ontario Junior field hockey team and the 1974 Ontario Senior team that competed in the Canadian championships. She also entered 19 individual and team competitions in women's interfaculty sports.

Janice McKeilan, manager of the senior intercollegiate basketball team and Women's Athletic President at Victoria College, won the Hill-Poor Award for dedication "behind the scenes" in sports administration.

New College athletes amassed \$45 points to retain for a second year the Marie Parkes Trophy for interfaculty competition. The award is named after Marie

Parkes, secretary-treasurer of the WAA from 1922 to 59. New College defeated P. & HE by 60 points "due to their tremendous level of participation in almost every sport and activity," said Iris Bliss, administrative co-ordinator of the interfaculty and intercollegiate programs.

WAA intercollegiate teams won seven championships including the 12th consecutive victory in senior field hockey, continued dominance in indoor and outdoor archery, plus the first-ever Varsity title in intermediate basketball. The other championships were in intermediate field hockey, badminton and fencing.

### Search group named

### for Ind Eng head

Prof. Arthur Porter will complete his second term as chairman of Industrial Engineering on June 30, 1976. A search committee to appoint his successor has been named as follows: Dean B. Etkin, chairman; Dean H.W. Smith, Profs. W.D. Baines, A.M. Kruger, J.C. Ogilvie, J.S. Rogers, M.J.M. Posner, and S.H. Cohn.

The committee will welcome any communications or recommendations concerning this appointment. These should be directed to the chairman.

## Keen on summer sport?

Recreational facilities in the men's and women's athletic departments will be available during the examination period and extensive summer programs will be offered to members of both sexes during the summer months.

The Benson Building pool is open for recreational swimming from 12-2 Monday to Friday, during supper time (5-7), and for cold-water swimming in the evenings. The pool will also be open on a co-operative basis Saturdays from 11 to 1.

Tennis, badminton and jogging facilities will also be arranged in the gymnasium but schedules will vary depending on examination arrangements. Interested users are asked to call the Benson Building staff at 928-3437 for additional information.

Hart House gymnasium will operate on the following schedule until May 16: Monday to Friday 9 a.m.-10 p.m.; Saturday 9 a.m.-12:45 p.m.
